

## Aquarium & pond...

AquaCarbX, aquarium grade activated carbon is a highly active and is manufactured from coal. The use of AquaCarbX helps in removing odors, organic pollutants, and toxic compounds. AquaCarbX is NSF certified, a certification used to certify activated carbon's use in drinking water purification. AquaCarbX is ideal for freshwater, marine and reef aquariums containing sensitive fish, plants and invertebrates.

Please refer to the table below for our standard aquarium grade AquaCarbX products. If you need larger quantities of material then please email your quote request at Sales@Y-Carbon.US or call us at 215.788.2461. You can also use our web form by clicking [here](#). We ship the same day if order is received before 3 pm EST.
